We are looking for wine importers and distributors  
interested in partnering with 805 Wine

Have you been frustrated when your customers ask for certified environmentally friendly wines and you don't have any to offer? Are you and your clients concerned about how our efforts are impacting the earth?

Well we're here to help you solve that problem with our California 805 Wines produced by winemakers that understand the importance of sustainability. Our sustainable wineries are specifically selected and are certified annually either by SIP (Sustainability in Practice) or by California Sustainable Winegrowing.

Paso Robles is the second largest wine region in California behind Napa and Sonoma. Our award winning wines are recognized around the world for their innovative blends. We offer red, white, rose, Rhone, Bordeaux, and Italian blended wines. And many other wines not shown on our website, but available for immediate purchase by importers at attractive pricing.

Please visit our website at [WWW.805WINE.JP](http://WWW.805WINE.JP) to hear what wine experts such as the Chief Editor of the SOMM Journal is saying about our wines during one of her most recent wine tasting events in Paso Robles, California.

Send us an email to receive our wine catalog and pricing.
